EXPERIENCE

Freelance Full-Stack Developer Independent

Current

- Designed and delivered four complete client applications end to end: an HRMS platform (full rebuild), an applicant tracking system, a driving school operations app, and a project management tool.
- Angular frontends with Node.js/Express APIs and MongoDB data layers; role-based access, approval workflows, scheduling, and reporting.
- Sole owner of scope, architecture, delivery, and deployment (CI/CD via Azure DevOps and AWS).

Frontend Engineer Professional experience

2 years

- Built and maintained production user interfaces — responsive, accessible, performant frontends shipped to real customers.
- Translated designs into pixel-accurate implementations and collaborated with backend teams on API contracts.

Part-Time Tutor Alongside undergraduate studies

During B.Tech

- Tutored students part-time throughout undergraduate years — communication skills applied daily with non-technical clients.

EDUCATION

M.Tech — Robotics Engineering Control systems, automation, and the hardware–software intersection.

B.Tech — Mechanical Engineering Analytical and systems-thinking foundation.

TECHNICAL SKILLS

Frontend: Angular, React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

Databases: MongoDB, PostgreSQL, Azure Cosmos DB

Backend: Node.js, Express, NestJS — REST APIs, auth, validation

Cloud & DevOps: Azure DevOps, AWS — CI/CD, hosting, domains, HTTPS
